This is the latest-greatest DAM J.A.M. Century that people from all over the area have been riding and talking about since 1992. If you like hills and smooth winding roads, this is as good as it gets. Covers 106 miles and all the features and lakes of the other routes, plus the mile-long historic Pensacola Dam and parts of Delaware County where you'll have views of beautiful Grand Lake O' the Cherokees and Lake Eucha before you head back on fabulous roads through the Spavinaw Wildlife Management Area to the smooth and rolling Kenwood Road.
